Product Leader | Human Centered AI

About the speaker

Neha Taleja is a Senior Product Leader at YouTube, where she leads Podcast Consumer Experiences for the world's largest podcast platform. She scaled YouTube Premium to 125M subscribers across 50+ countries and now applies those same lessons to integrating Generative AI into media products used by millions daily.
Her work sits at the intersection of Human-Centered AI and Media, and she created the INTENT Framework to help teams build AI products that earn user trust without sacrificing authenticity. Audiences leave with a practical playbook they can apply immediately.

Why Neha?
Neha brings hard-won lessons from shipping AI products at global scale and leaves audiences with practical takeaways

Neha is a frequent speaker & panelist at influential media and technology conferences, connecting with diverse audiences at scale.

- The NAB Show | Las Vegas '26
- The Podcast Show | London '26
- University of Applied Science | Vienna '26
- Podcast Movement | Dallas '26

Signature Speaking Topics

Product Leadership in the Age of Intelligence

Bringing empathy-driven AI in your work that helps you maintain trust and relevance while accelerating innovation and impact.

Podcasts' Next Chapter: Video, AI & Global Fanbase

Evolving podcast landscape in the age of AI. How AI is empowering creators and enhancing the consumption experience.

Human-Centered AI in Media

What AI in media means for trust, authenticity, and user agency. Introducing the INTENT Framework for designing AI-mediated media that prioritizes human intent over pure automation.
